CHAPTER – III REQUIREMENT ANALYSIS

3.1 – Customer Journey Map

The Customer Journey Map for "Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau" is about the experience of people like home buyers and sellers and investors and real estate analysts when they look at housing market data. The journey starts with people trying to learn about what's happening in the market right now and what houses are selling for and where they can get good information.

After people make a decision, they keep watching what is happening in the market and how much their house is worth and how their investment is doing.

The Customer Journey Map for "Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau" also talks about how people feel at each stage and what problems they have.

The Customer Journey Map for "Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau" also talks about how people feel at each stage and what problems they have.

This helps make sense of data and lets people compare houses easily.
