

Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau

TEAM ID	SWTID-2026-1261
PROJECT TITLE	Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau
MAX MARKS	3 MARKS

3.3 – Data Flow Diagram

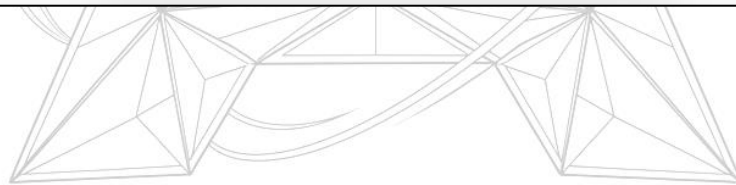

The Data Flow Diagram of "Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau" starts with collecting housing market datasets from sources like CSV or Excel files that have information about sale prices and other things like locations and property features.

The collected housing market datasets then go through a process where the Data Flow Diagram of "Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau" removes information that is not needed and handles missing values to clean the datasets.

The Data Flow Diagram of "Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau" puts these pictures into things called dashboards that people can use to look at the data and filter it to find what they want.

The Data Flow Diagram of "Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau" shows how housing data moves from where it comes from to the point where decisions are made.
