

Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau

TEAM ID	SWTID-2026-1261
PROJECT TITLE	Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau
MAX MARKS	1 MARK

CHAPTER – V

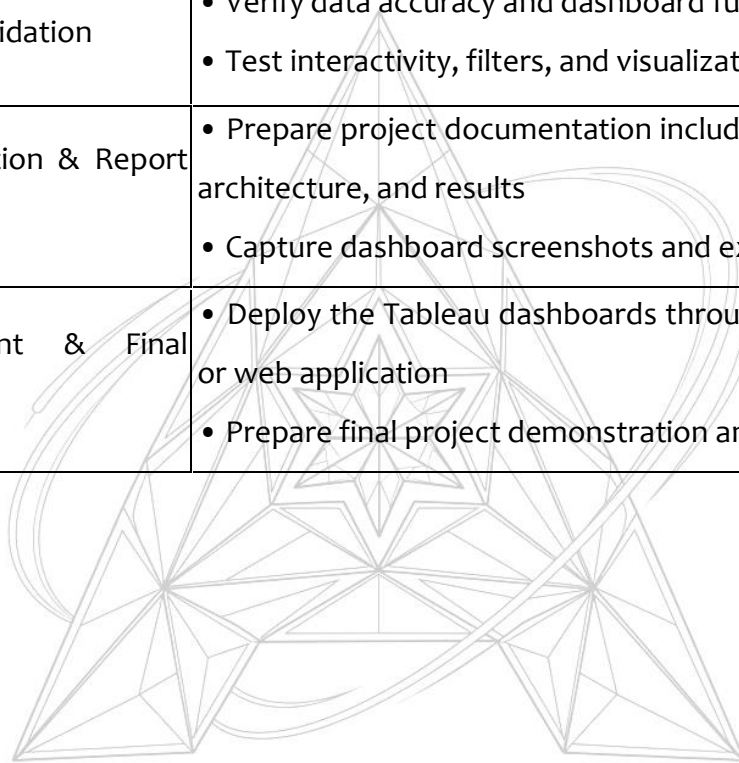

PROJECT PLANNING AND SCHEDULING

5.1 – Project Milestones & Tasks

Milestone	Tasks
1. Project Planning & Requirement Analysis	• Define project objectives and scope • Identify housing market problems to analyse • Determine required datasets and features
2. Data Collection	• Gather housing market datasets from reliable sources • Collect information such as sale prices, property size, location, bedrooms, bathrooms, and other features
3. Data Preprocessing & Cleaning	• Remove duplicate records and handle missing values • Correct data inconsistencies and format data for analysis • Prepare a clean dataset for visualization
4. Data Exploration & Analysis	• Analyse relationships between sale prices and housing features • Identify trends, patterns, and key insights • Perform statistical and comparative analysis
5. Tableau Dashboard Design & Development	• Create interactive charts, graphs, and maps • Develop dashboards for price trends, feature comparison, and market analysis • Implement filters and interactive components

Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau

Milestone	Tasks
6. Story Creation in Tableau	• Create a Tableau story to present the complete analysis flow • Highlight major findings and market trends using visual storytelling
7. Testing & Validation	• Verify data accuracy and dashboard functionality • Test interactivity, filters, and visualization performance
8. Documentation & Report Preparation	• Prepare project documentation including methodology, architecture, and results • Capture dashboard screenshots and explain insights
9. Deployment & Final Presentation	• Deploy the Tableau dashboards through Tableau Public or web application • Prepare final project demonstration and presentation
