

Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau

TEAM ID	SWTID-2026-1261
PROJECT TITLE	Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau
MAX MARKS	1 MARKS

5.3 – Project Progress Tracking

Phase	Activities Completed	COMPLETION
Project Planning & Requirement Analysis	Defined project goals, identified the problem statement, and selected the scope of housing market analysis	Completed ✓
Data Collection	Collected housing market dataset containing sale prices and property-related features	Completed ✓
Data Preprocessing & Data Cleaning	Handled missing values, removed duplicate records, corrected inconsistencies, and prepared the dataset for analysis	Completed ✓
Exploratory Data Analysis (EDA)	Analysed relationships between sale prices and various features such as area, bedrooms, bathrooms, and location	Completed ✓
Data Visualization Development	Created interactive charts and visual representations to identify trends and patterns in the housing market	Completed ✓
Tableau Dashboard Creation	Designed dashboards with filters, charts, graphs, and interactive elements for better user experience	Completed ✓
Tableau Story Development	Developed a Tableau story to present insights and explain the complete analytical process	Completed ✓

Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau

Phase	Activities Completed	COMPLETION
Testing & Validation	Tested dashboards for accuracy, functionality, responsiveness, and proper data representation	Completed ✓
Documentation Preparation	Prepared project documentation including objectives, methodology, architecture, and results	Completed ✓
Project Deployment & Final Presentation	Published Tableau dashboards through Tableau Public/web application and prepared final project demonstration	Completed ✓
